

# Nostradameus, 1986

You'll never ever notice what soon will be coming  
Coming for you  
I'll never forget 'bout what happened that day  
Like always, you treated me like I was nothing  
Nothing at all  
I'll show you just what has become of me

You say you never meant to make me feel that way  
But I know you did, but still I'm careful what I say

Revenge is mine  
Even if you think that I have already lost  
This battle and this war  
Revenge is mine  
The future won't be yours  
And you do not even know when I'll come

You robbed me, took my heart and my soul and my body  
You took everything  
But I'm back now and I'm stronger than ever before

You say you never meant to make me feel that way  
But I know you did, but still I'm careful what I say

Revenge is mine  
Even if you think that I have already lost  
This battle and this war  
Revenge is mine  
The future won't be yours  
And you do not even know when I'll come

You say you never meant to make me feel that way  
But I know you did, but still I'm careful what I say

Revenge is mine  
Even if you think that I have already lost  
This battle and this war  
Revenge is mine  
The future won't be yours  
And you do not even know when I'll come  
Revenge is mine  
Even if you think that I have already lost  
This battle and this war  
Revenge is mine  
The future won't be yours  
And you do not even know when I'll come
