Nostradameus, Requiem (I Will Honour Thy Nam

(The prince:)
My dear father you have left us
For a better place to be
The people's tears are falling
But they still just cannot see
That Hister is so evil
He's destroying our country
It seems to be so hard to understand that you are gone
Will the future bring, your wisdom to me
Or will darkness rule the kingdom, for all eternity

You will live, in my heart I will still remember even though we're apart I will feel, you're there for me As I walk the road of life you'll help me fight for what is right I will honour thy name

(Solo Jake)

Eventhough you didn't wanted You've left me all alone Everybody turns against me They believe that I'm the one Who poisoned you, my father You know that it's not true Oh, I see, it was the prophet To take the power away from you

Will the future... You will live... You will live...
