

# Not By Choice, Everynight

Not by choice  
everynight

I like to see for miles...mile and miles..  
but I can't see a future between you and me  
it's not that I don't want to be with you  
just that I get to blind and I can't see

(chorus)

then I see you.. time goes by so fast  
but then I see you..knew that it would never last  
everynight I fall asleep.. wish that you were by my side  
every dream that I dream..dream that you were by my side

If I could get enough..enough of you..  
and your pretty face and the little things you do  
I want you to know how I feel that I will always be true to you

then i see you time goes by so fast  
but then i see you.. knew that it would never last  
everynight I fall asleep..wish that you were by my side  
every dream that i dream.. dream that you were by my side

(repeat chorus)
