

# Not By Choice, Make My Day

Attention is what I'm  
Is what I'm needing from you  
Even though you're miles away  
It's not that I miss you  
I just want to be with you  
And everything will be ok

You make my day, you make my night  
You make everything alright  
And when you come around  
You always bring me down

Rejection is what I'm  
Is what I'm feeling from you  
Cuz you left me yesterday  
It's not that I'm pissed off  
I'm just lonely without you  
I can't believe you've gone away

You make my day, you make my night  
You make everything alright  
And when you come around  
You always bring me down
