

Not By Choice, Same As You

This is EXACTLY how this songs lyrics are in the not by choice cd booklet thing

I can't believe a thing you said to me
You didn't mean it anyway
You went away again and you're never coming back
Tomorrow's come and gone today
When you say my name its just like
I feel the pain that no one
Can take away its just like
I feel the same the same as you
My friends all say that you're no good for me
They didn't mean it anyway
You chose your way and now the past is never coming back
And you will see one day
When you say my name its just like
I feel the pain that no one
Can take away its just like
I feel the same the same as you
I tried too hard to look the other way

-Chris-
