

# Not For Resale, Hot Day In July

Hot day in July  
Last I will ever say  
Goodbye I will never see you again  
That's ok I'm sure we'll still be friends

Yea right  
You never know what you got  
Until it's gone

You never know what you got  
Until it's gone

Hot day in July  
Last I will ever say  
Goodbye I'll never see you again  
That's ok I'm sure we'll still be friends

Yea right  
You never know what you got  
Until it's

And now in summertime  
This place without you  
And know im finally starting to realize that

You never know what you got  
Until it's gone

You never know what you got  
Until it's gone

So can you tell me what you're thinking  
Can you tell me what the sinking feeling is inside

Even though I lied to myself  
I denied my true intentions  
And then you're gone

And now in summertime  
This place with out  
And now I'm finally starting to realize that

You never know what you got  
Until it's gone

You never know what you got  
Until it's gone

And now in summertime  
This place without you  
And know im finally starting to realize
