

# Not Katies, Why It Has To Be

It never worked  
This love we've shared  
Made me so lustful  
Made me want to hold you

But I know it can't be  
You're so much better than me  
I wish you could see....  
just why it has to be.....this wayyyyyy.....

I tried to be good enough  
but I could never.....keep up  
I tried to make this, the best....but it just fell apart

But I know it can't be  
You're so much better than me  
I wish you could see....  
Just why it has to be.....this wayyyyyy.....

I love you  
I know you love me, too  
But you deserve so much more than what I can give.....  
And it's just why it has to be.....this wayyyyyy.....
