

# Notarthomas Jamie, Chasing Dreams

So you think you found something you can believe in  
Then find that it's moved very far away  
Success is just a word to keep you running  
So many people act as if they know the way  
I know that nothing's gonna change if you keep looking that way  
We know there's more to this than meets the eye  
So don't think you can't see what I see  
And I see  
The distance that surrounds you  
The distance all around you  
From the caves of France to the tablets of Sumeria  
Siberia to Central Mexico  
It crossed the dirted plains to Austin, Texas  
It always seems to come and never fails to go  
Chasing dreams, chasing dreams  
I think I found a better place to go  
I think I found a better place to go  
It hid on hitch hike trails and songs of freedom  
Then woke itself in Memphis, Tennessee  
While Buddy Holly died inside an airplane  
It went from Minnesota to the village N.Y.C.  
Chasing dreams, chasing dreams  
I think I found a better place to go  
No I think I'm goin' the right way  
No I think I'm goin' the wrong way  
No I think I'm gonna go to Colorado  
No I changed my mind I'm gonna do Chicago  
That surrounds you  
All around you  
It covered its tracks back to San Francisco  
Some people argue Kesey never bowed  
From Detroit, Michigan to Britain, England  
Motown cried real hard, and then she laughed real loud  
Chasing dreams, chasing dreams  
I think I found a better place to go  
I think I found a better place to go  
Surprise, it landed down in Athens, Georgia  
It came up like the sun a couple years ago  
Some still think it's in Seattle with that Grunge thing  
But I just saw it and it's headed back for Mexico  
Chasing dreams, chasing dreams  
I think I found a better place to go  
Why does everything seem simple in the first play  
When we know that 99.9% won't make it, Yin Yang  
Nothing will change if you don't see  
The distance that surrounds you  
The distance all around you
