

# Notarthomas Jamie, I Believe In You

-----  
I will catch you, if you fall  
But please don't test me or else I'm gone  
Another time, maybe, we would have doubted  
But now that's something that we can do without  
I'll shout it from the valley  
Hear me high upon the mountains  
I believe in you  
For seven years now, winter through fall  
I've been hanging in these bars way too long  
Everybody's mirror just reflects the worst in me  
But I know I'm a better man, if only you can see  
Like the sun, rain and soil that believe in the seed  
I believe in you, believe in me  
Your future waits at the end of the hall  
Here's a candle to help you along  
Divide the dried roses by the number of lies  
Infatuation only lasts until the rose dies  
But I will plant a field of trees that grow ten stories high  
Cause I believe in you, believe in me  
So I will catch you if you fall  
Come what may rich, poor, worse, I'll take it all  
Cause the longer that I stare at you the lonelier I feel  
And anyone can dream but it takes two to make it real  
Hey, I just got a great idea, let's make a deal  
I'll believe in you... please believe in me  
Believe in me
