

# NOTD, Been There Done That (feat. Tove Styrke)

Do you know what it's like waiting for ya?  
Then you apologize, but you never change at all  
You know what you're doing to me, doing to me, doing to me  
Do you know what it's like waiting for ya?  
Why don't I save myself some time? Why?

Tell me why I keep going back  
When I know I been there, done that  
Why do I keep missing you for messing up something, instead of letting go?  
Tell me why I keep going back  
When I know I been there, done that  
Keep on wanting something that won't change  
Been there, done that  
Been there, done that

You don't know what it's like loving someone  
Gave my heart, got the back of your mind  
No, I've never felt so small  
No, you know what you're doing to me, doing to me, doing to me  
You don't know what it's like loving someone  
Why don't I save myself some time? Why?

Tell me why I keep going back  
When I know I been there, done that  
Why do I keep missing you for messing up something, instead of letting go?  
Tell me why I keep going back  
When I know I been there, done that  
Keep on wanting something that won't change  
Been there, done that  
Been there, done that

Just let me go  
If you don't love me, no, go

Tell me why I keep going back  
When I know I been there, done that  
Why do I keep missing you for messing up something, instead of letting go?  
Tell me why I keep going back  
When I know I been there, done that  
Keep on wanting something that won't change  
Been there, done that  
Been there, done that

Tell me why I keep going back  
When I know I been there done that  
Keep on wanting something that won't change  
Been there, done
