

# Nothing But Thieves, Forever & Ever More

Down in the gutter and looking for trouble  
or something o that effect  
and there she was, a mirror cross  
ironically 'round the neck  
and as you kissed me upon the lips  
and the fever came without a warning

so give ma a holler  
and then I will follow you down into the dark  
and I was left in the depths  
running to follow heart  
and there's just something about the sun  
seems so very very boring

what did you think when you made me this way?  
what did you think when you love me this way?  
hold me close when we got to the gates  
and we'll be together forever and ever and more

if you desire then you can get my fire  
and I'll be your gasoline  
I'm getting sick of all the kicks  
the city is selling me and she said  
hey, let's get away and I'll be your new little baby

what did you think when you made me this way?  
what did you think when you love me this way?  
hold me close when we got to the gates  
and we'll be together forever and ever and more

Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me  
Hold me close  
Smother me

Hold me close  
back in love  
wrap your arms around me  
at your killer  
like a killer

what did you think when you made me this way?  
what did you think when you love me this way?  
hold me close when we got to the gates  
and we'll be together forever and ever and more
