

Nothingface, Dead Like Me

I realize
Time's ticking by
Change what I am
The way I feel it
Like me now
Like you now
Like me now
The faces change
Hides in the shade
I can't fear the way back into you
Hide everything that's helping me
What can't you just let me fall apart?
I realize
Time's ticking by
Change what I am
This way I feel it
Like me now
Like you now
Like me now
The colors fade
Caused bloody days
Now you know the truth about your friends
Just where they are
Or where they lie
Why can't I wash the blood off my hands?
I realize
Time's ticking by
Change what I am
This way I feel it
Like me now
Like you now
Like me now
So, you think I'm nothing
But you'll see
Dead like me
I got this feeling
In my chest
That I'm free
Dead like me
You'll see
I showed you inside of my dream
You'll see
But still I feel nothing
You'll see
I showed you inside of my dream
You'll see
But it's my turn
You saw me dying
You want to sell your soul to those men
You risk us all
If there is one thing I've got to tell you
You say you're cold
But it's bull shit
Alone again
I said we'll beat them all
I realize
Time's ticking by
Change what I am
This way I feel it
Like me now
Like you now
Like me now
All the pain, it satisfies my dreams and thirst
I never try to help you or your filthy friends

I'll always hate you till the end
