

Novalis Deux, One Step

Come on my angel, come down to me
My time is over, want to follow you
Come on my angel, please help me fly
The world is dying, I want to say goodbye

Come on my angel
Come on my angel
Let me fly

Take me with you on your flight
We're leaving this world to the other side
On the heavens road, on the other side
Together we can start our perfect life

Come on my angel
Come on my angel
Let me fly

Ich war in deinen Augen einen Schritt entfernt von dir

Hello my angel, one step away
The harbour before us, but you go alone
My girl, my angel, you left this place
My hands in the ground and you close your eyes

Come on my angel
Come on my angel
Let me fly

Ich war in deinen Augen einen Schritt entfernt von dir
