

# Novastar, Ask For The Moon

Would I ask for the moon  
if I'm asking if you can hear  
the sound of my soul  
would it help me to get back here

love comes in at last  
here she comes  
making-up the morning into sun

how the best song seems to fade  
every time I feel important to you  
how the best song seems to fade

would I ask for the moon  
if I'm asking if you can hear  
the sound of my soul  
would it help me to get back here

love comes in at last  
here it comes  
one small ray of hope  
give me some

how the best song seems to fade  
every time I feel important to you  
how the best song seems to fade

would I ask for the moon  
if I'm asking if you can hear  
the sound of my soul  
would it help me to get down here  
down here  
down here  
another lonely soul
