

# Novastar, Lend Me Love

There's a sound  
it tears everything apart  
it sounds in my heart  
rain all over you  
and over me  
down in my heart

we'll make out on a rainbow  
we'll make out until everything has gone  
lend me love  
lend me love

there's a sound of lust and overused  
I wouldn't know what to do  
bringing up these things  
that I can't stand  
stranded I don't know what to do

we'll make out on a rainbow  
we'll make out until everything has gone  
lend me love  
lend me love

cry me a river  
cry me a river  
cry me a river  
if it opens your heart  
cry me a river  
cry me a river  
if it helps you cope with this  
out there finding gold

we'll make out on a rainbow  
we'll make out until everything has gone  
lend me love  
lend me love
