

Novastar, Mars Needs Woman

Hey commander
It's your cadet
I'm only a rookie
And you're a vet
I've got this ship
It's kinda like my car

Hey commander
New to the game
It's called survival
What's my name
For this mission
Behind bars

Don't you know
It's getting kinda strange
Mars needs woman
Can that be arranged
You best buckle up
Before you hit the roof
Mars needs woman
Needs woman too

Climb aboard
With the speed of light
See the stars
Before it gets night
Hang on tight
The earth's gonna move

Hey commander
It's your cadet
I'm only trying
But not quite there yet
I've got this cause
It kinda seems so far

Don't you know
It's getting kinda strange
Mars needs woman
Can that be arranged
You best buckle up
Before you hit the roof
Mars needs woman
Needs woman too

Don't you know
It's getting kinda strange
Mars needs woman
Can that be arranged
Oh I'm all buckled up
Gonna hit the roof
Mars needs woman
Needs woman too

So floating...
