

# Novembers Doom, If Forever

On the days you long for me  
And the cold nights of grey

(Hear me)

I ask you to forgive me  
And bow my head in shame

(Feel me)

I promise, I will never leave you  
I will not go on without you  
If the light calls upon me  
I will remain, waiting for you

(Live for me)

I've never felt so empty before  
I never cared more for us

(Pray for me)

I promise, I will never leave you  
I will not go on without you  
If the light calls upon me  
I will remain, waiting for you

Somewhere along the days of my life  
I found my faith in you

(Cry for me)
