Novi Ierusalim, Reflection

Perfect mirror reflected Our heavenly face Could be higher than angels But we have chosen disgrace

Perfect Image of Heaven Come to save human race Could be higher than angels Again we've chosen disgrace

I don't wanna turn away
For I wanna see Your face
So I could look You eye to eye
I don't wanna turn away
For I gotta know Your grace
So I could hold Your hand and fly

Perfect Image of Heaven We could see face to face In Your eyes we reflected Again You gave us the grace
