

Novi Ierusalim, Your Wings

More than just a moment
I long to lift you up
And elevate you far beyond the skies
A shooting star in heaven
Will open up your eyes
And show you how I
made this world for you

Follow the light
Break through the night
Stretch out your wings
Let them take flight
Wipe tears away
I'm by your side
Fly through this world
I'm by your side

I am
I'm knocking at your door
I wanted you to see
this world of mine
Step across the skyline
Gravity denied
Close your eyes
And you and I will fly.
