

Now It S Overhead, A Little Consolation

Are you staying or going?
We're leaving the driveway
We'll call if it's close
Now don't you worry

[Chorus]
Follow the light over
Leave us behind

Hello, she will be here
Not too many more days
Speak up in a hurry
So there won't be pain

[Chorus 2x]

Put my face in a shoulder
Red eyes have swollen
The pipes of the organ
A little consolation
A little consolation

Sending the night away
Sending the night away
Sending the night away
