

# Now It S Overhead, Wait In A Line

I will wait in a line for the club lights to hypnotize  
Move as one in the night when the beats hit like we&#039;re alive  
Like birds on a wire  
We&#039;ll hold on that much

I will be compromised by a heartbeat laced; attack my spine  
Feel the mercury climb; when the club lets out, a quick decline  
With confidence rise  
As phoenix we fly  
Unconquered we lie  
Gravity catches up
