

Now It S Overhead, Wait In A Line

I will wait in a line for the club lights to hypnotize
Move as one in the night when the beats hit like we're alive
Like birds on a wire
We'll hold on that much

I will be compromised by a heartbeat laced; attack my spine
Feel the mercury climb; when the club lets out, a quick decline
With confidence rise
As phoenix we fly
Unconquered we lie
Gravity catches up
