

NRG, I O U

I owe you my love baby owe you
I owe you my love baby owe you owe you owe you
Look at me, even when I say Im always by you
For you who told me that I need to forget sad things
I will understand you... but dont leave me Oh Baby
*Im in debt with your love (every moment you love) I will pay you back
Accept the fact that I love you, I have nothing else but you
For you who taught me this love,
Who showed me to share the hard times and the pain
(Rap)
A failure of a taste of love
I get to look back into my life
I touch unerasable wounds
Let it flow as it is,
You make me realize how precious you are
You tell me you will embrace me if I want love Oh baby
*Im in debt with your love (every moment you love) I will pay you back
Accept the fact that I love you, I have nothing else but you
For you who taught me this love,
Who showed me to share the hard times and the pain
I'll be here, I'll watch over you, I'll be with you, I'll love you
I cant hear anything if you're not here with me
I cant see anything because I owe my love on you
*Im in debt with your love (every moment you love) I will pay you back
Accept the fact that I love you, I have nothing else but you
For you who taught me this love,
Who showed me to share the hard times and the pain
I owe you
I have nothing else but you
