

# Nuclear Assault, Sign In Blood

Step right up, play your guitar  
Play that gig and you'll get far  
Never mind how you get there  
Just trust us, we'll always be there  
Here's the deal, don't look to close  
It doesn't matter who gets the most  
Here's the money, almost enough  
To make your album, now get it up

Sign in blood  
Sign in blood

Signed in blood, sell your soul  
Bonded for life, relinquish control  
Signed in blood, sell your soul  
Bonded for life, relinquish control

Did that one really well  
Now do another, what the hell  
Never mind, it's not your deal  
It's for the best, it'll make you real  
Fly to LA, a cheap hotel  
We've run out of cash, I'm sad to tell  
Crash with your friends, it's OK with them  
But don't tell us, not your problem

Signed in blood, sell your soul  
Bonded for life, relinquish control  
Signed in blood, sell your soul  
Bonded for life

Sign in blood  
Sign in blood

Legal problems, sleazy deals  
We've traded our lives for bigger deals  
Managers that manage not  
Booking agents that should be shot  
Legal loopholes really a noose  
To choke your life out then let you loose  
Meet the victims of success  
And psychopaths that want us dead

Signed in blood, sell your soul  
Bonded for life, relinquish control  
Signed in blood, sell your soul  
Bonded for life
