

# Number One Gun, Who You Are

And what is your name  
You gotta believe in something  
And haven't you heard that nothing brings me down

You start with the same  
And how does it feel to know how  
The feeling inside is gone now I will wait

Backing up is gonna hurt yourself  
But I will wait  
Your destination is gonna kill yourself  
But I'll have faith

This way you're confident  
Now that you're facing it  
You used to fear the pain you had  
You'll take it by the hand instead  
So take me now  
You'll have your time to notice me  
And everything is real

I have to decide  
If leaving myself is worse than  
The only thing left to know is time will tell

I'm kinda afraid  
You're turning me into something  
You're telling me now that I am waking up

You're breaking up, you're gonna hurt yourself  
In time, you'll die  
You're facing up you gotta save yourself  
You know, it's right

This way you're confident  
Now that you're facing it  
You used to fear the pain you had  
You'll take it by the hand instead  
So take me now  
You'll have your time to notice me  
And everything is real

Let's be the way we used to be  
It's time to fall in love  
I'm not afraid to see the end

This way you're confident  
Now that you're facing it  
You used to fear the pain you had  
You'll take it by the hand instead  
So take me now  
You'll have your time to notice me  
And everything is real
