

# Numic, Afterlife

It's futile when we've tried  
everything's left inside  
I guess that is why they thought we were sleeping  
though the more that we hold the tide  
the more that will drown the child  
in spears of thought we help to endear

(chorus) - hold me gently  
the world's below me I'm  
caught in the afterlife  
caught in this afterlife

take the beauty out of life  
say you're spiritually redefined  
I guess that is why they thought you were slipping  
pull the trigger unleash the storm  
don't say you were never warned  
not to chance when this feeling has lapsed

(chorus)

hide the light  
eyes no sight  
bold the lie  
facing the hole  
so you see that I could never be  
one mind for anyone like you  
(repeat chorus) (I'm your secret)

Recrudescant Feed Lyrics 2005 NUMIC  
Thrown Away:

one said one believed  
while they warred peacefully inside  
what is this amount you need?  
what is this inside that we don't see?

(chorus) - I've come so let's start the bidding  
does what I say feel so comforting?  
I've come so let's start the bidding  
take my hand and promise this land to me and  
I'm thrown away

what's said it feeds file out and ration what you need  
what is this amount you need?  
what is this inside that we don't see?

(chorus)

wake up and see the fall  
wake up and see  
wake up and see the fall  
wake up and I won't make a sound
