

Numic, Bait

So you and I
slowly close our eyes to this gravity
fundamental lies
the truth is just so hard to find in this gravity

I wish to
find this

the only light I see is out of place
so show me baby
a holy mind that feels so unafraid
so would you show me

So you and I
bait our faith in lies of gravity
truth may show in time
alleviate our weighted minds from this gravity

I wish to
find this

the only light I see is out of place
so show me baby
a holy mind that feels so unafraid
so would you show me

I wish to
find this

come on, come on
you've made your bed so follow me
come on, come on
I'm baiting you on
come on, come on
you've made your bed so follow me
come on, come on
and show me the way back

the only light I see is out of place
so show me baby
a holy mind that feels so unafraid
so would you show me
