

# Numic, Crawl

stretching my coiled hands out  
dragging the legs that used to hold me  
periodically free suddenly the road before me  
falls so I fall can I run? only crawl

(chorus) right back light again

I can feel a burning a longing if you will  
tempt me toward the aftermath of what I feel  
so I crawl pulling and pulling again still I crawl

(repeat chorus)

go go go on  
how how could I loose you?  
how could I treat you this way?  
and how how could I mean to?  
as if you've done the same

my convictions opened a hole in my intentions  
ready to expose ambrosia  
making my gods and demons crawl

(repeat chorus)  
I crawl I crawl why crawl I crawl
