

Numic, The Fuse

I can't Bare to keep it inside
The more I say the more you divide

It came true that you lied
Ten more times we'de gather round the wake
If I had my way, you would pay
We'de find our remedy

Say your standing with me
Say you see what I see
Say it louder so that I can hear you
So what they're not convinced
They're misled dissidents in a
BULL SHIT FREAK FEST
Call this revolution
Call it anything we're breaking you down

The fuse just started
to let you out
The fuse just started to blow this up

The same is never used
New excuse for every word you say
If I can't be blind I will try
to bring you all with me

Say your standing with me
Say you see what I see
Say it louder so that I can hear you
So what they're not convinced
They're misled dissidents in a
BULL SHIT FREAK FEST
Call this revolution
Call it anything we're breaking you down

The fuse just started
to let you out
The fuse just started to blow this up

Breaking you
Breaking you
Breaking you down

Breaking you
Breaking you
Breaking you down

The fuse just started
to let you out
The fuse just started to blow this up
