

Nuno Bettencourt, Fine By Me

The rocketship crashlanded, stranded on the moon
Fine with me, as long as I'm with you
Caught in an avalanche, buried in the snow
Fine by me, I'll melt away with you

Most people would rather
Skim the lake for night time insects
Most will never find what I have found

According to them I've lost my freedom
Love 'em and leave 'em is not my freedom
Maybe it's true I'm a bit addicted
But being free is simply loving you

Home lazin' round the tube with nothin' else to do
Fine with me, I'll do nothing with you
Can't sleep, the mind is itchin' bed bugs on the brain
Don't despair, I'll toss and turn with you

One man's superstition
Is another man's religion
Most will never find what I have found

According to them I've lost my freedom
Love 'em and leave 'em is not my freedom
Maybe it's true I'm a bit addicted
But being free is simply loving you

There's nothin' wrong with space, need time to be alone
Fine with me, as long as I'm with you
Chained up in a boiling kitchen, can't escape the heat
Come with me, I'll run away with you

According to them I've lost my freedom
Love 'em and leave 'em is not my freedom
Maybe it's true I'm a bit addicted
But being free is simply loving you

Yeah life's a rollercoaster off the beaten track
I'm not scared, I'm riding next to you
Time flies and then you're old, years go cruising by
Fine with me, as long as I'm with you
