

Nuno Bettencourt, War Paint

My people - it's like a motion picture
Ya push it and push it
You're pushed into believing

My people - were pushed into extinction
Push over move over
Your place in time is over

Liar liar
Learning from the book of lies
Keeps you feeling good and blind
Liar liar
And if you want the only truth
It's buried under foot

Put on your war paint
Cause here they come to claim your home
And claim your mother earth
Put on your war paint
Cause here they come to change your god
And crush your own beliefs

Columbus - our favorite nations hero
He torched and murdered

The people that once saved him

Columbus - went home his countries failure
In shackles a criminal
And yet we celebrate him

Thanksgiving - a touching celebration
Share everything with you
Before we have to kill you

Liar liar
Cause history is his story
It's buried underfoot

Put on your war paint
Cause here they come to claim your home
And claim your mother earth
Put on your war paint
Cause here they come to change your god
And crush your own beliefs
Put on your war paint
Cause here they come to spread their lies
And leave you with disease
