Nutty Boys, Complications

(Thompson/Foreman)
Try to understand the complications
Running through my mind
I've barely the time for my own relations
Let alone your own low life crimes
So spare me the grief accept the consequences
You'd steal the gold from the teeth
As your grandmother ghostdances
We're all looking for a good time
The easy way out
And with the complications there's got to come a lowdown
Complications there's got to be a showdown
Do I honestly know just what it is I'm searching for
Looking for searching for
I'll check under the floorboards
So just stand still it's all making me
(Complications all work all work out)
(Complications all work all work out)
(Complications all work all work out)
(Complications all work work ??? out)
We're all looking for the green man
The safest way home
Check it check it check it check it check check check check it ???
Complications there's got to come a lowdown
Complications there's got to be a showdown
Try to understand the sheer frustrations
Tumbling through our mind
Do I honestly know just what it is
I'm searching for
We're all looking for a good time
The easy way out
Complications there's got to be a lowdown
Complications there's got to come a showdown
Complications hi hi hi, hi hi hi
Hiiiiiiiiiiiiii !!!!!!!!!!!!!!!!!!
