

Nylon Beat, All Right

I have been thinking of
How it's going to be
Will we grow older with serenity

And when I let sadness flow
Further way beyond
You come to me and keep me hanging on

It's gonna be all right
All right
Whenever you're next to me
And whisper in my ear

All right
Baby it's all right
Tell me the words I need to hear
And keep me near, so near

You must have been thinking of
When you look at me:
It's only foolish insecurity

But I'm aware of all I am
And how it's going to be
Without your love
There won't be life for me

It's gonna be all right
All right
Whenever you're next to me
And whisper in my ear

All right
Baby it's all right
Tell me the words I need to hear
And keep me near, so near

All right
All right
Whenever you're next to me
And whisper in my ear

All right
Baby it's all right
Tell me the words I need to hear
And keep me near, so near
