

# Nylon Beat, If I Had Your Number

I would be calling you  
If I had your number  
Don't break my heart in two  
Just gimme your number

My phone is made for you  
If I had your number  
Need someone just like you  
I'm talking to

The way you kissed me on that sunny day  
Melt all ice away from me  
That day I gave my heart away  
And now I need you desperately

I would be calling you  
If I had your number  
Don't break my heart in two  
Just gimme your number

My phone is made for you  
If I had your number  
Need someone just like you  
I'm talking to

In the late of night i'm still awake  
Thinking about the things you said to me  
Since you came nothing feels the same  
And now I need your company

I would be calling you  
If I had your number  
Don't break my heart in two  
Just gimme your number

My phone is made for you  
If I had your number  
Need someone just like you  
I'm talking to
