NYLON BEAT, LOVE AND HATE:

What do I do?  
What di I say?  
In my life theres only you  
Our love is real in a way  
But do you have to hurt me too

How will I know this is for real  
you always got the best of me  
But at the end I have this year  
You wouldnt share my fantasy

Chours:  
This is about our love and hate  
we better stop before its too late  
Thats way my heart is black and blue  
and cryiing

Were only playing peace and war  
I've never flet like this before  
Theres nothing left to say or do  
Loves dying

You had my trust and my heard  
You had the front row in my dreams  
But you let go right from the start  
You wont believe how bad it feels

And now it all is in the past  
your aren't my future anymore  
we could have made everything last  
instead we only lost it all

this is about.... x 3
