

Nyoy Volante, Rain Rain

Standin' in line, half past five
Bus ain't here to give me a ride
Sky's turn gray, starts to spray
Had to run and find a place
Warm and dry

Would have been one of my worst days
Except for the fact that the girl of my dreams
Is standing beside me
Betcha by freakin' golly wow!
never thought I'd say this, but...

Rain rain please dont you go away
I have her in my arms
Make her hold me and make me say
"Hey, wish you here everyday"
Now I wont ever long
For a bright sunny day, ohh

Rain rain dont you dare go away
Make her stay, make her say
"Dont go away"

Seven o' nine
Still no ride
Till a damn taxi cab had to arrive
Sighin' and wet, she makes it inside
Leavin' me with seven other soakin' guys

Would have been one of my worst days
Except for the fact that the girl of my dreams said
"Hey, need a ride?"
Betcha by freakin' golly wow!
never thought I'd say this, but...

Repeat chorus

Rain rain rain rain rain rain
Make her stay
Make her say
"Dont go away"
