

# O-Town, See You Again

Ohhhh!  
I like your style  
I love your smile baby

Taken my durability  
Taken the ability  
To push this in the right direction

See you again  
Baby  
And I hope that I can see you again

I don't wanna know that I can count her out  
You're too scared to talk about  
Things I wanna say so privately  
I want your secrecy

So come a little closer  
Girl I want to know  
What's in your heart  
What's in your soul  
My body's poisoned  
Body's sayin'  
That you'll lead me there

Sunlight at the dance floor  
Diamonds fancy restaurants  
I know that it ain't all it seems

Hold on!  
Before you judge me  
Come on!  
just try and love me  
You'll see!  
That I'm the man in your  
Dreams!

See you again..
