

Oasis, Life In Vain

I used to live my life in vain
Until today it's been the same
I've gone away to disappear
My life with you was just too dear
A better life is all I need
To free me from this naughty league
I've been and gone
I won't be back
I'll live my life without all that

With my own eyes
I realise
It was time to say goodnight
I was never really sure
But now I know I'm right

I used to live my life in vain
Until today it's been the same
I've gone away to re-appear
My life with you was just too dear
A better life is all I need
To free me from this naughty league
I've been and gone
And I won't be back
And I won't be back
