

# Oblivion Dust, Sneer

well I really was sinking /in desire / Feel at ease now  
You need direction && Try and pick up the pieces

&& oh how quickly we can fall /but that's not the question

so reassuring to know there's another dimension

&&i wish i was clearer / I wish i was lost /i thought i was nearer  
I guess that i'm not /Funny how we all seem to get in-between her

&& we all look down now Feeling higher/ A new religion now / Don't look like your kind

&&Try and pick up the pieces/ oh how quickly we can fall /but that's  
not the question/ So reassuring to know there's another dimension

&&i wish i was clearer / I wish i was lost /i thought i was nearer  
I guess that i'm not /Funny how we all seem to get in-between her
