

Oblivion Dust, Sugar Free

Blue ocean fills me
Sunshine don't
Slowly watching all the pain disappear
It's the only way
It's the only way
Shut down all the main controls to my fear
It's a method to leave
I've died so many times
i've died...so many times

Glued up and shinning
So very bright
Let the flavour take hold over me
It's the only way
It's the only way

Open mouth no vocabulary
It's a method to leave
But I...die so many times
I've died...

Clean the wave, clean the wave
The sky is underground
Always above me
Clean the wave, clean the wave, clean the wave
The sky is underground
Always above me
Always...Always...Always
