

Obsession Indecent, Kiss Me

Excuse me for staring
Your looks have me blinded
You want to touch me
So don't try to fight it
Kiss me

I'd walk your sweet curves
For days without water
My drink is your lips
Don't you think you oughtta
Just kiss me

Blond and ambitious
You're dancing with wild boys
Melting the ice 'round my heart
Girl with your voice

CHORUS 1
Strawberry lips saying
Baby I want you
Raising my fever tonight
So why don't you
Just kiss me
Oo woo oh kiss me

This conversation is making me nervous
Please pay attention
Imagine we're lovers
And kiss me

You turn me on
Turn me off like a flashlight
Feel like a blindman
Who's taken the night flight
So kiss me

I am the mirror
Who holds your reflection
You can't resist me
I am your infection

REPEAT CHORUS 1

Strawberry lips call my name
So inviting
Can't think of anything else
More exciting
So kiss me
Oo woo oh kiss (strawberry lips)

Dressed to the teeth
In your soft skin and perfume
Only my heart cuts the silence
In your room

REPEAT CHORUS 1

Strawberry lips are my favourite flavor
Drinking their color
Is all that I'm made for
So kiss me
Oo woo oh kiss me
