

Obtained Enslavement, Carnal Lust

[Music: Heks & Dden/Words: Pest]

I yearn for the departure of the holy trinity
Hooded I stand triumphing above the rest
The frosty mist lies thick over the holy ground
As the mooneclipse creates a sombre delight
Vengeance is mine, The convent will be overthroned
The feeble and the weak shall fall, Paralysed be thy lord
Blasphemy and witchery, I will destroy the creation
In the name of the horned one
Revocation of god's creation
Let the carnal lust begin
The covenant is sworn
I scorn your god and spit upon his throne
At the heart of the forests
The fire burns for you
Welcome to the coven
Mighty warlock
In the name of witchcraft
Come to life
Take the form of fire
Take the form of fog
Paramounted you stand
High above any god
Forever spellbound
Ancient spirits sing
As fullmoon lights the sky
"The oath of witchcraft...
...Will never die"
