

# Obtained Enslavement, Warlock

(Music: Heks/Words: Pest)

We dance in the heart of the forest  
Our fingers cast no shadows  
Torches light the circle  
The coven begins  
Goddess of fire  
Cast me thy moonspell  
Grant me the powers of the nocturnal arts  
Dance the circle  
Unite us in spirit  
And bring forth to us thy forbidden pleasures  
Brought to life by the pagan  
The spirit of the raven  
Darkness caresses us  
As the nightqueen hears our prayers  
Ancient spirits whisper  
Unseen is our desire  
Immortal souls of heathen faith devour the sun  
Goddess of wisdom  
Hear the summoning of your children  
Bewitched by the essence  
Of your diabolical beauty  
Oh, mighty warlock  
Forgotten by time  
Still your spirit lives in these forests  
You who rule the night  
You are the essence of evil  
Bring thy glory into our hearts
