

Obywatel GC, The Hangman's Song

when I go to work and meet all of my patients
and I take my orders waiting for today
when I walk past closed doors all I hear is silence
but I knock and say: "Come on! Go! This way!"

yes I hate my black suits and the mask I wearing
but this is my work and work is just my life
even making love in my home to my own wife
I can see the fear in her staring eyes

I'm just a hangman
must be a hangman - wow
but who will do it
but who will do my job for me
I'm just a hangman
must be a hangman - wow
and no one loves me
but who will do it do it
do my job for me

I'm a legal killer I'm a legal murderer
but I wander streets and I'm still free
it's so hard to feel free oh - but not feel guilty
so I'm going crazy - God! what's wrong with me

I'm just a hangman
must be a hangman - wow
but who will do it
but who will do my job for me
I'm just a hangman
must be a hangman - wow
but who will do it do it
do my job for me

so you must sing alone
the hangman's song
so you must sing alone
the hangman's song
so you must sing alone
the hangman's song
so you must sing alone
the hangman's song
