

Ocean Blue, When Life Was Easy

There was a time when life
was easy

My heart did soar for what
the future stored and life,
it pleased me,
But it's all gone now,
gone away now
far away.

My life it's changed or have
I rearranged what was
my life

What once brought fright,
now seems oh so trite
and I'm scared

Catastrophe and calamity
are the norm now
And life seems like some
old forgotten dream,
far away.

But when I look into
your eyes
I forget myself and
my sighs
I'm alone with you on
the sea
on a crystal sea.
