

Ocean Colour Scene, Besides Yourself

Before I let you all go
Before I pull you from this show
Before I wave to you
I'd like to say to you
I wish you never to be alone
Besides yourself what can you say
Millions apart and miles away
Besides yourself what do you need
Some feel no pain while others bleed
So if you're going to save my words
Make sure it's this time you deserve
Before I walk away
I know your every day
Will play before you on it's own
(Repeat Chorus)
And I'm not saying I'm not saying any wrong by you
And I'm not saying I'm not talking my time for you
(Repeat Chorus)
