

Oceans Of Sadness, In the End

Charge!!!

All rise, please applaud for the mass persuasion of the insecure

Applause for the invasion of psychiatric needs for the unsure

Shaking the hand of the one in command as he acts like friend, then you come in

He fakes and pretends and you don't understand so he'll win in the end, but not anymore!

Now shine you crazy diamond go on and do the things you did before

Don't be afraid of asking 'cause all the answers you will need for sure

Shaking the hand of the one in command as he acts like friend, then you come in

He fakes and pretends and you don't understand so he'll win in the end, but not anymore!

Maybe when you're sleeping tight

when you're dreaming of a world that's bright you'll see

Soon we will shine like stars in the sky, right before falling, without asking why

Soon we will shine like the spark in your eyes, right before sleeping forever, goodbye

One day we will all go back to where it all began...

In the end we pretend to repent for our sins

In essence we're condemned to pretend our needs and they still grow

It holds you down, controlling, the need to shine keeps growing

We are divine and one day we all will shine

Eternally, forever

Yes, as you see it's better

To come with me, together

We could save the world, we could save us all
