

Ochman, Overthinking

The fire dies, no one's left inside
It makes no difference just how hard I try
Could I have been to help set you free?
Hundred fucking thoughts flowing into me
Can't be the same, there's no empty space
Overthinking of this ain't a phase
Could I have been to help set you free?
Hundred fucking thoughts flowing into me

Hard to get it then repeat the shit again
Fucking up my vibe with somebodies
Easy to understand when you got no other plans
Overanalyze never lightly
Overanalyze never lightly
Overanalyze never lightly

What really hurts, cycle never ends
Paranoia fucking up my head
Never go back so alone, got a chronic disease
'Cause hundred fucking thoughts flowing into me

Hard to get it then repeat the shit again
Fucking up my vibe with somebodies
Easy to understand when you got no other plans
Overanalyze never lightly
Overanalyze never lightly
Overanalyze never lightly

Hard to get it then repeat the shit again
Fucking up my vibe with somebodies
Easy to understand when you got no other plans
Overanalyze never lightly
Overanalyze never lightly
Overanalyze never lightly
