

OCTAVIA, PLUS MINUS INFINITY

Plus Minus Infinity
When you hold me When you hold me tight
And just whisper
When you hold me just like now
When y'hold me...Can't believe it really happening
I'm so lucky
Want to keep this moment all my life
Plus Minus Infinity
I send my love to you
Plus Minus Infinity
I hope for a better world
Every time you call me I feel love is all around
Every time you call me I feel happy like a child
But my friends warn me
He wastes your time
So I beg you to
Save your love for us
Plus Minus Infinity
I send my love to you
Plus Minus Infinity
I hope for a better world
