

# October Fall, Keep Dreaming Upside Down

I was burning up to fall apart  
And the walls fall down around my heart  
Now I'm feeling sick  
It's always something lately

I was broken down but still looked good  
I was kissing clocks, you knew I would  
Now I'm feeling scared  
Someone say that they miss this

The night is young  
We wait for love  
Upside down we dream  
At home we sleep  
And wait to leave  
Upside down we dream  
And we, are, are brighter than stars back home

Don't leave so fast  
Don't leave so fast

I was in the sun but feeling cold  
I was grabbing tight but lost a hold  
Now who'd wanna stay?  
Yeah well we're all here changing

I was ripped apart but held by glue  
I was full of lies but spoke the truth  
Now I've lost myself  
Oh I forgot how this felt

The night is young  
We wait for love  
Upside down we dream  
At home we sleep  
And wait to leave  
Upside down we dream  
And we, are, are brighter than stars back home

Don't leave so fast  
Don't leave so fast

The night is young  
We wait for love  
Upside down we dream  
At home we sleep  
And wait to leave  
Upside down we dream  
And we, are, are brighter than stars back home

Don't leave so fast  
Don't leave so fast
